

ATLANTIC24

GENERAL OVERVIEW

Function	Mid-shore trawler
Classification	Transport Canada - Large Fishing Vessel under 24 metres
Construction	Steel / Aluminum
Speed	10.5 knots
Overall length	27.6 m (90' 6")
Overall width	8.2 m (27')
Draft	4.0 m (13')
Engine	MAN IMO Tier III
Diesel tank	40 800 L
Service tank	Fresh water 15,720 L, DEF 3,900 L, holding 550 L
Ballast tank	30 000 L total
Hold capacity	286 m ³

The mid-shore trawler designed for Canadian fisheries

This solid vessel of less than 24 metres is equipped with an IMO Tier III certified engine that meets new international environmental standards and a refined hull that save money on fuel consumption.

Equipped with a cutting-edge fish processing system, this technological marvel has many easily customizable features, including:

- a high efficiency system to produce liquid ice
- refrigerated holds that can be adapted to different fisheries
- a ballast system
- stabilizing fins

With impressive stability and performance, the Atlantic24 is truly remarkable!
