Motorization	IMO Tier III 750 HP, 1800 rpm
Diesel tank	23 052 L
Service tank	Fresh water 7,900 L, DEF 1,800 L, holding 450 L
Ballast tank	7 600 L
Hold capacity	70 m ³ / 90 m ³

Multiconfiguration. High-performance. Sustainable.

A vessel designed for crabbing and trawling. This 24' wide model is under 150 tons. The NVX040's refined hull shape and bulb with ballast tank allows it to balance the ship's trim and ensure good longitudinal stability.

Configurable up to a length of 70', this model is equipped with an IMO Tier III engine which means it is fully compliant with international environmental standards to ensure sustainable fishing.
