

## Achievements

### BARGE 104'x34'

#### GENERAL

Function	Transport barge
Classification	n.a.
Construction	Steel
Client	Desgagnés Transarctik
Chantier	Soucy Industriel

#### DIMENSIONS

Length overall	31.68 m (104')
Beam overall	13.41 m (34')
Depth	1.83 m (6')

#### CARGO CAPACITIES

n.a.

#### PERFORMANCES

n.a.

#### PROPULSION SYSTEM

No propulsion

#### AUXILIARY EQUIPMENT

n.a.

#### DESCRIPTION

The recent collaboration between **Navanex** and **Soucy Industriel** marks an important milestone in our quest for excellence in shipbuilding. Together, we took on the challenge of completing the manufacturing of two large 104'x34' barges for **Desgagnés Transarctik Inc.** In this project, Navanex's expertise supported the Soucy Industriel team as a consultant, while providing the production engineering that allowed for a thoughtful and optimized construction for the shipyard's capabilities. This strategic partnership illustrates our shared commitment to the efficiency and sustainability of constructions made for our shipbuilding industry.
